Facts About Carlton's Quality and Dependability

Every workman is especially trained for his work in growing, handling, grading or packing for shipment, and each operation receives personal supervision.

All Carlton trees are pruned, trained and shaped in the nursery row. Most varieties of Fruit trees are topped at the proper height for branching, thereby developing a uniform, branched top in the nursery row. We are the only nursery on the West Coast offering this high quality type of tree, which gives the planter the thrift of a yearling and the quality and size of a two-year tree.

All tree varieties are carefully marked in the field with true name and registration number. Field charts are carefully checked and recorded, and all registration numbers are available to the planter on request. Carlton trees are not only **true-to-name**, but the strains are better.

All crooked and inferior trees are discarded and only first quality trees are sold.

You'll Grow Better and More Fruit with Carlton Trees.

Information

PLANTING SEASON: Fall, Winter and Spring (6 to 8 months), are ideal for planting in the West. Deciduous trees and plants — November to May. Evergreens, Rhododendrons, etc., October to June.

TIME TO ORDER: Orders are accepted any season of the year, for delivery at the proper planting time for your locality.

SHIPPING: Read Shipping Information below.

Parcel Post regulations limit the size of shipments which may be sent by mail. Roses, shrubs, small fruits, small orders of trees, etc., can usually be sent by mail. Most shade trees, etc., are necessarily sent by **Express** or **Auto Freight**.

SUBSTITUTION: Please state when ordering an assortment whether substitution will be allowed, as we feel at liberty, when no instructions accompany the order, to use similar or better varieties when we are out of the kinds named. Check the square Yes or No on the order blank.

TERMS OF PAYMENT: Customers will please forward cash with the order. If your order is over \$5.00 and is to be sent C.O.D., send 25% cash with the order.

Carlton trees are free of dangerous pests and diseases, and can be shipped into any State of the Union.

Shipping Information

No Charge for Packing. All orders are carefully packed to arrive at destination in perfect growing condition.

All Prices in This Catalog are F.O.B. the Nursery. We use the method of delivery which will be most economical and will give the greatest satisfaction for the customer. The customer pays the **Express, Auto Freight** or **Freight** charges at time of delivery from the Transportation Company.

For Your Convenience: If the package of Nursery Stock is small enough to be shipped by **Parcel Post**, we will pay the postage, and send the customer a bill for the exact amount. In this event, we will appreciate your cooperation in remitting the postage amount to us promptly.

Carlton's Outstanding COMBINATION FRUIT TREES

Tree lovers will find a never ending source of interest in growing these "Combination Trees". A single tree with three or four or five varieties of fruit ripening over a long season, will produce fruit for every occasion. The "Combination" tree is very ornamental too, with its display of contrasting colors, shapes and sizes of flower and fruit. An ideal shade tree for the small yard.

Special selections of 3 and 4 varieties grafted on a single trunk

The Broadest Guarantee Ever Made

We guarantee every plant, tree, or shrub that we ship out to be free from disease, true-to-name, and to arrive in perfect growing condition. If for any reason whatsoever, you are not satisfied that you have received 100 cents in value for every dollar sent us, we will refund your money. Our policy of "Every Customer a Satisfied Customer" means all that it implies, and we are here to give ABSOLUTE SATISFACTION.

We will replace, free of charge, trees and/or plants that fail to grow — providing, that the planter follows our Planting Instructions. Request for replacements should be made in July, and replacement trees will be shipped in the fall. Free replacements will not be made, where loss is due to reasons beyond our control, such as from rodent damage, breakage after planting, or from neglect in watering and care.

ATTENTION ORCHARDIST!

We specialize in producing fruit trees for orchard planting and recommend for your consideration.

PEAR TREES budded on Old Home X Farmingdale cutting grown root systems.

CHERRY TREES grown from virus tested bud and scion wood and on tested root stocks including the new F-12-1 Mazzard, recommended for the Willamette Valley.
